LOGISTICS SPECIALISTS

June 2009.

We are a logistics company who have always practiced high safety standard and we were introduced in the summer of 2008 to a new product on the market called the Zafety lug nuts. The time spent on the installation of the product was small and the benefits to our company can only grow. Our drivers have also commented on the help it has provided them in doing their daily circle checks. We will continue to add Zafety lug nuts to our fleet when the need comes.

Yours truly,
